On April 12, 2020, Prospect College provided an update to the campus community about accepting this federal funding and announced the distribution process to students.

Prospect College's Methodology for Distribution:

- (a) Prospect College applied the student portion of the CARES Act Higher Education Relief Funds, totaling \$118,093 (from above table). These funds were issued to 225 eligible students as direct monetary grants.
- (b) Prospect college determined the number of eligible students based on their eligibility for Federal Student Aid program.
- (c) Prospect College distributed a fixed monetary grant of \$ 525.00 per student. The amount of each grant was calculated by dividing the total grant amount by the total number of students. The funds were distributed to students in cash with student signature for acknowledgement.

Guidance to Students:

- (d) Students have been guided to use the HEERF funds received to cover the cost of attendance expenses incurred to be able to continue their education. This includes transportation, food, course materials, health care equipment, and childcare. Prospect College has continued to pay all of its employees and contractors during the period of the grant to the greatest extent practicable.
